MEMORANDUM FOR: Executive Director-Comptroller

SUBJECT : Deputy Director for Plans' Reply to Inspector General's Report on Survey of [redacted]

25X1

1. The tone and thrust of the DDP Reply is constructive and contributes to an objective consideration of the questions. We are not inclined to contest the DDP "nonconcurrences" on Recommendations No. 2, 12, and 23.a.

2. The replies on Recommendations No. 1, 6.a., and 30 are not final. In the instance of Recommendation No. 1, an indefinite period of "transition" is envisioned. In Recommendation No. 6.a. compliance at an early date cannot be accomplished due to an outstanding real estate lease. The major organizational proposal in Recommendation No. 30 is deferred.

3. There are eight responses on which we wish to comment. Some appear as unqualified nonconcurrences. Others are stated as concurrence or concurrence-with-modification, although study leads us to feel that they may reflect actual disagreement. These questions are reviewed in the attachment.
